

## Professional Color, Increased Productivity

Print, Copy, Scan, Fax

With Samsung's CLX-6250FX color laser multifunction printer, you get the benefit of high quality color printing, scanning, copying and faxing, for a productive and efficient office environment. Low maintenance, high speed and user-friendly features combines with enhanced color quality and superior design specifications to make the CLX-6250FX an effective solution for your business.

### High Speed Performance

Users benefit from a high-speed printer, copier and scanner that offers high resolution document printing. With an up to 700 MHz CPU and a generous 256 MB RAM, the Samsung CLX-6250FX offers a 25 ppm print speed and a First Page Out Time of as fast as 17 seconds. You can also upgrade to 768 MB RAM to handle even your biggest jobs with ease.

### High Resolution

Communication is key in any business. And if you communicate with superior print quality, your company can stand out. The Samsung CLX-6250FX excels by offering 9,600 x 600 dpi that combines with a high-gloss feature to create outstanding high-resolution color documents. Improved color technology delivers color adjustments and uniformity for versatile and high-quality document output.

### Smooth Network Integration

The built-in Ethernet interface allows you to connect everyone in your office to one network and keep everything running smoothly. They'll share a common printer and you'll save the time needed to service multiple machines.

### Duplex Printing

With the Samsung CLX-6250FX, duplex printing has been made easier and more convenient by eliminating the need for manual paper reinsertion. The duplex automatic document feeder saves time and money by automatically loading and flipping the paper for easy double-sided document printing, including faxes.

## Toner Management

With the TonerSave™ feature, you can monitor and effectively limit your toner usage for a cost-effective business solution. Using less toner on each page can also extend your cartridge life, significantly reducing your cost per page, and help you to meet stricter environmental standards.

### Blue Compass Navigation

Samsung's unique Blue Compass navigation, with a 4-line LCD screen, is easy to learn and even easier to use. The navigation layout gives you instant access to print functions and controls. Simple, intuitive menus add to the savings in training and troubleshooting time.

### Direct USB Interface

The Samsung CLX-6250FX utilizes the latest technology to ensure total convenience. The USB port located on the front of the printer allows you to easily access and print files stored on your USB drive. With a wide range of files supported from PDF, BMP, TIFF and JPEG, you can save time by printing straight from your USB drive.

### SyncThru™ Web Service

SyncThru™ Web Service is easily and remotely accessible through a web browser, and provides administrators with the ability to change network and individual printer settings, upgrade firmware, and view network printer status.

### SyncThru™ Admin 5

The SyncThru™ Admin 5 device management solution enhances productivity by using efficient and time-saving device management tools such as Remote Settings Modification and Driver Distribution. You can also add a Job Accounting, Usage Monitoring, Authentication and Storage Management Plug-In to this solution.

### ENERGY STAR Compliant

By being ENERGY STAR compliant you are assured that your Samsung model is helping the environment by using less energy while saving you money. ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy promoting energy efficiency.

### Easy Color Manager

Easy Color Manager allows you to easily adjust the color balance, brightness, contrast, and saturation of any image that you view on your monitor. This is especially useful when you have specific color preferences, or when your company has branding color requirements.
